

Transformational games as prevention for teenagers

how not to become a victim of their own risk

01

Theoretical section

general material and
summaries of the survey data

Relevance

Transformational games offer an innovative and exciting approach to risk prevention among adolescents.

They contribute to:

- the development of self-awareness
- the acquisition of problem-solving skills
- the ability to make decisions

Statistics

NO 39%

61% YES

Do you think there are risks associated with relationships between teenagers at the present time?

Statistics

Very rarely **32%**

Rarely **15%**

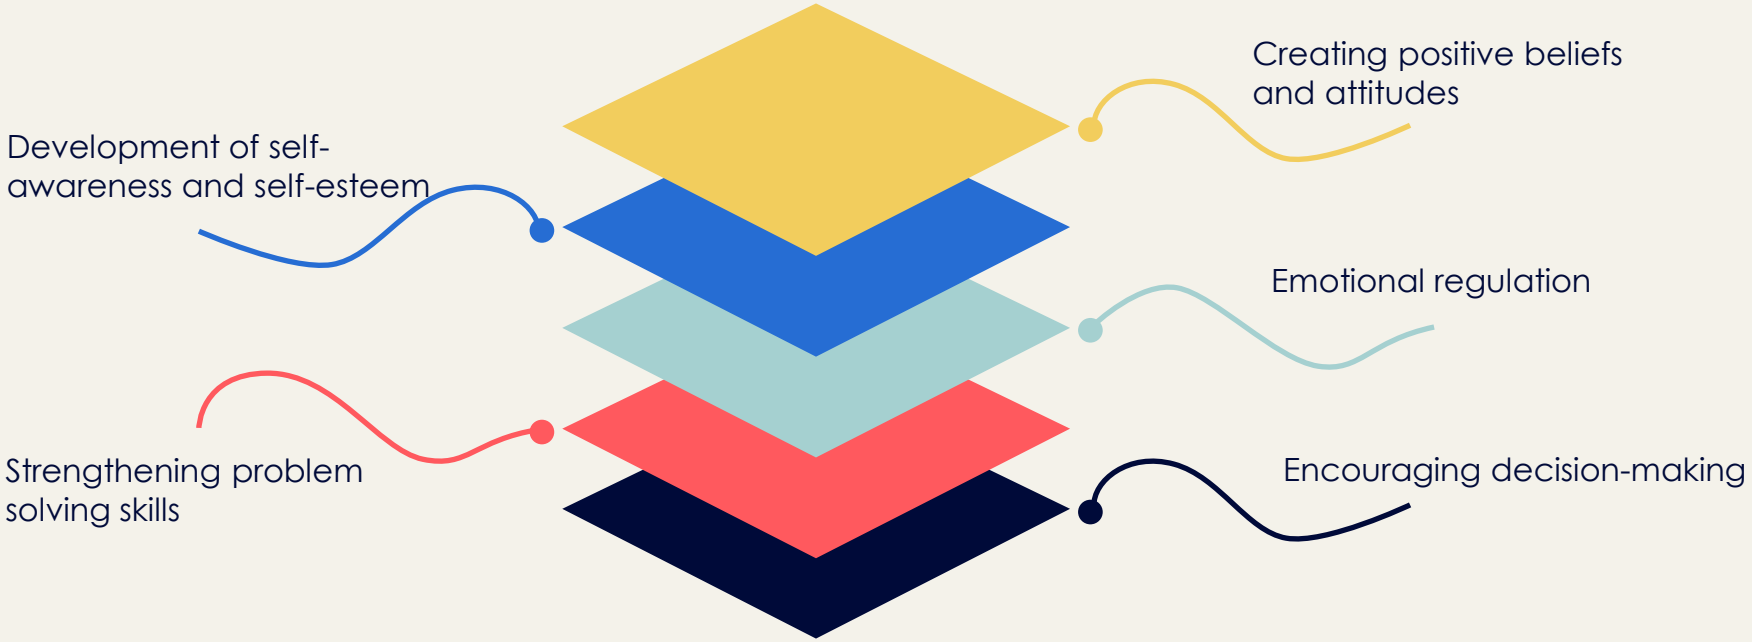

Often **7%**

Sometimes **37%**

How often have you experienced negative consequences from using the Internet and social networks?

How do t-games prevent teenage risks?

- They see no point in considering public risks without digital risks -

- They want similar games to be held in public institutions -

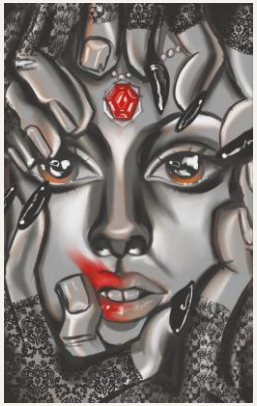

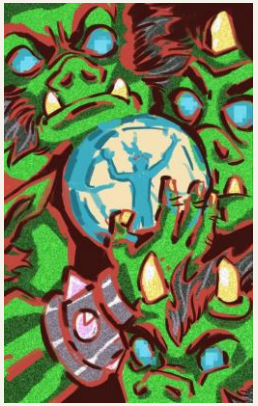

opinions of teenagers
